My dearest:

Still do not get this statement, "my coming would not gain you anything." What do you run away from? Why are you afraid of me? I do not get it fully for a person of your age. I think if we both took leave around the same time I think we could mediate a great deal. I go to school 1 May but only for a short while. I am due leave near the last part of May or the first of June. If you want to put it off until we can get some time set we might be able to spend an enjoyable leave or do you have some at Fort Bliss you would like to see? Well, we can get all that decided later.

Destroy all those old letters. I think they pollute your mind. Old memories are not pleasant if they are hazy and indefinite. Think profoundly.

Love, Briscoe
